God continued to overwhelm and encourage us to go forward with Him.

- On the first workday of the year, we saw seven clients. Three accepted Jesus as Lord and Savior. There was also the bonus of a boyfriend recommitting his life to Christ. This gave us a glimpse into the days to come. In May, the long awaited “Crisis Pregnancy Center” sign was installed as a beacon of light for prospective clients. We saw a record 63 new clients in the month of November.
- The LEAP (Life Education Assistance Program) class enrollment had increased to the point that our classroom was often packed from wall to wall.
- Our Bible study that helps individuals learn to read, understand, and hunger for the Word was well received and growing.
- The wonderful items donated by many were passed on to bless the members of our classes. The Center was also able to partner with several local churches to meet the needs of desperate hurricane victims.

The Lord called us to excellence in service and provided to make it happen.

- Two employees were placed on staff to meet the demands of the ministry.
- The Center received an extremely favorable critique and approval for Care Net affiliation. This organization sets high standards for its members including policy and procedures, a legal audit, site visit and training. Representatives from our center gained many insights into expanding the ministry at Care Net’s national conference.
- With increased services, we knew a major fundraising event was mandatory. The Lord took our small plans for a banquet and created a gala event in the celebration of life. Testimonies touched hearts, and the benefit far exceeded our expectations. At the end of the evening, two pro-choice individuals told us they had a different perspective of the pro-life movement. Mere words cannot express the wonderful joy of celebrating the Lord’s love for life.

The Lord showed His faithfulness to the unborn through ultrasounds.

- Statistics prove that we serve a high risk abortion area. In 2003, we were given a twenty-year-old restored ultrasound machine. The Lord answered many prayers, and all things came together for the Center to become a limited medical facility.
- The Center filed an application for the Focus on the Family’s Option Ultrasound grant. The newer machine allows the Center to show a pregnant, abortion-vulnerable woman her baby within 6 weeks from conception. A view into the womb at a younger gestational age continues to save many lives.
