We are thankful for “The See and Believe Foundation” who provided a 70% grant toward our new ultrasound machine and donors who contributed funds toward the balance.

- With this newer technology, the view of a baby in the womb is incredible.
- One of our highly trained ultrasound technicians has returned from a leave.
- During 2013, two volunteer RNs have also been in training to become sonographers.
- None of us has the gift of prophesy, but we do believe God has used this year to prepare us for His plan of future increase. Our prayer is many more mothers will choose life in the years to come.

Our supporters’ thoughtfulness and generosity have always been an incredible, integral part of this story.

- With Jesus, education, and the ultrasound, we know that the tide is now turning and over 55% in our country are pro-life. This is because all of you care enough to stand firm, speak out, step forward, and share.
- As Christ saves one life at a time at our Center, we are convinced that all things are possible through Him and those of us who love Him.

Though many are impressed by the statistics of this CPC ministry, they are shared with the understanding we would do all we do for one.

- Walking into the crisis of our clients who are making difficult choices daily is intense. Their pain is real, and our hearts break for them. We cannot solve all their problems, but we can by the power of prayer and the presence of God share the love of Jesus with them. Therefore, over the ten years, our greatest blessing is to witness their hopelessness turn to hopefulness.
 - 1,465 persons have prayed to accept or rededicate their lives to Jesus
 - 3,359 women at risk to abort have chosen "Life" for their babies
 - 7,993 LEAP (Life Education Assistance Program) attendances have been recorded
 - 1,732 Bible Study attendances have been logged
 - 23,213 visits by clients and members of their support groups have been served
- We never cease to be amazed by the impact of God’s faithfulness to this His mission. Every life saved or helped is valuable.
